

HTK 7.5T

Suitable accessories

Spare wheel and bracket
 Duomatic coupling
 Spring-loaded cylinders (no spindle parking brake)
 Towing eye Ø 50 mm
 Swivelling towing eye with Ø 40/50 mm towing eye
 Drawbar for different lengths
 and coupling heights
 7-pin socket at rear
 Electronic hydraulic system 12/24 Volt
 with battery and hand pump
 Reversing light (additional)
 Work light
 Rotating beacon incl. 7-pin socket
 LED rotating beacon
 Hinged doors instead of tailgate
 Side wall extensions
 Steel grid extensions
 Plastic tool box
 Night parking warning signs
 Rear marker boards
 Bridge safety supports
 Covering net
 Side impact protection
 Aluminium ramps with patented locking mechanism

Side impact protection

Aluminium access ramps with patented locking system

Additional LED work light

Plastic tool box

Additional reversing light

Additional accessories available on request

DETAILS

TANDEM THREE-WAY TIPPER 7.5t HTK 7.5T

HTK 7.5T Technical details

Model name	HTK 754020
Total permissible weight in kg	7 500
Total dimensions in mm (LxWxH)	6 070 x 2 200 x 1 450
Internal dimensions in mm (L x W)	4 000 x 2 030
Load capacity in kg	5 250
Load height in mm	920
Tilt angle (side/rear) in degrees	45/48
Tyres	215/75 R17.5"

Subject to technical modifications. All dimensions are approximate values and refer to the standard vehicle without accessories. Additional equipment changes both the unladen weight and the load capacity!

HTK 7.5T General equipment

CHASSIS

- Axles with parabolic suspension

BRAKING SYSTEM

- Air brake with release valve, automatic load-dependent brake ALB, connecting hoses with red/yellow coupling heads, spring-applied parking brake

DRAWBAR SYSTEM

- Single-circuit hydraulic connection, control via tow vehicle

ELECTRICS

- 12/24 Volt splash-proof and vibration-resistant lights
- 15-pin connector
- Optional Electronic hydraulic system 12/24 Volt with battery and hand pump

LOADING + LOAD SECURING

- 2 pairs of hinged lashing eyes recessed in the corners of the bridge floor (lashing force 3 t)
- 3 pairs of lashing brackets recessed in the bridge floor in the longitudinal direction (lashing force 2 t)

RAMPS

- Lockable mounting slot for optional aluminium ramps integrated into the chassis frame

CHASSIS FRAME

- Chassis and bridge frame hot-dip galvanised
- Steel side panels 400 mm high, can be folded down or removed on the sides and at the back; solid steel front wall, removable
- Four-level telescopic cylinder
- Floor panels made of 4 mm galvanised steel sheets

TANDEM THREE-WAY TIPPER HTK 7.5T

HIGH LIGHTS

Thanks to its slim build, the HTK 7.5 metric tons is optimally suited for urban operation. Weighing in at 2.2 t, it's a true light-weight and can be manoeuvred with confidence by various towing vehicles. Thanks to the numerous optional accessories, such as the light aluminium driving ramps, a tool box or the electric-hydraulic system with batteries and remote control, it can be customised to suit your individual needs.

Ingenious functionality down to the last detail

Extendable ramps

LIFELONG USE

- Galvanised drawbar
- Bridge frame reinforced with 4 mm steel floor plates
- Optimal corrosion protection thanks to hot-dip galvanised side panels

EASY TO OPERATE

- Draw tube adjustable without steps
- 15-pin connector

SECURE TRANSPORT

- Axles with drum brakes
- No-maintenance parabolic suspension with load balancing

Your heavy load benefit package
